

Ref. no. 128/18 dated November 13, 2018

LETTER OF RECOMMENDATION

To whom it may concern

This is to confirm that Anna Semjonova attended the QA Academy Software Testing Basics course from September 12 till November 13, 2018 and successfully completed 80 academic hours of training.

During the course, Anna mastered the following topics in software testing: introduction into the software testing process, defects description and project life cycle, levels of testing, test documentation, reports and testing strategies.

Anna showed outstanding abilities required for successful work in the field of software testing.

We recommend Anna Semjonova for probation period and further employment in the position of a Junior Tester. We are sure that Anna will make the best use of her professional skills and personal qualities to contribute to your company's success.
